That's it boys and girls, the WebCanvas team is Unstoppable!!

WebCanvas has not been around for more than a week and already we are preparing to bring you an update that will blow your mind away!

Our vision is to free you from the limits of the web, and in keeping with this we absolutely guarantee that soon you will be literally Flying through WebCanvas and enjoying every minute of it!

If you are wondering how we manage this pace, well.. let me say that just like you we are Really curious about seeing our ideas coming to life.

Now, if we could just stop drooling over the new WebCanvas we would manage to be even more productive.

Remember folks, this is just the beginning.... the next stop is the sky!
